Koppal, Karnataka, India

Summary

Mechanical Engineering student with hands-on experience building multimodal AI and Retrieval-Augmented Generation applications using modern web technologies. Skilled in Python, C++, full-stack development, and Git/GitHub.

Education

- **Tontadarya College Of Engineering** *2024-2028*
  B.E. in Mechanical Engineering Gadag, India
- **Padua Pre University College** *2022-2024*
  Pre-University Education Mangalore, India

Projects

- **Aura Voice 2.0 — Multimodal AI Agent** *2026*
  Tools: Next.js · TypeScript · Supabase · Generative AI [GitHub]
  - Developed a multimodal AI assistant supporting real-time voice conversations, vision-based understanding, document Q&A, multilingual interaction, and persistent memory.
  - Designed an AI-agent architecture with multi-step reasoning and tool execution for context-aware task handling.
  - Integrated Supabase for persistent data and memory management and built the full-stack architecture using Next.js and TypeScript.
- **YT Chatbot RAG : Retrieval-Augmented Generation Platform** *2026*
  Tools: RAG, LLM, Full-Stack, Docker [GitHub]
  - Developed a Retrieval-Augmented Generation (RAG) chatbot for querying and interacting with YouTube video content using natural language.
  - Implemented context-aware retrieval and LLM-based response generation to produce content-grounded answers.
  - Built and Dockerized the full-stack application for modular development and deployment.

Skills

- **Programming Languages:** Python, C++, JavaScript
- **Web Technologies:** HTML, CSS, React.js, Node.js, Express.js
- **Database Systems:** MongoDB, SQLite, MySQL
- **Cloud Technologies:** AWS Foundation
- **DevOps & Version Control:** Git, GitHub
- **Specialized Area:** Generative AI, Full-Stack Development, Automations
- **Other Tools & Technologies:** n8n, Make.com, Automation Anywhere, VS Code, Kaggle Notebook
- **Research Skills:** Literature Review, Problem Formulation, Research Methodology, Critical Thinking

Volunteer Experience

- **Associate Coordinator** *2025 - 2026*
  Tontadarya College Of Engineering
  - Coordinated communication between students and faculty and supported academic activities, technical events, and student initiatives.
  - Supported timely communication and coordination of activities between students and faculty.
  - Participated in college activities involving leadership, communication, teamwork, event coordination, and problem-solving.

Achievements

- **1st Place — Karnataka Biosecurity Network** *2026*
  KLE College, Belagavi
  - Won **1st Place** in a **National-Level Hackathon** for developing an AI-powered livestock health and biosecurity platform.
  - Developed a solution focused on **disease detection, animal health monitoring, biosecurity management, and farmer–veterinarian connectivity**.
- **3rd Prize — AI-Driven Micro Fan Pods** *2026*
  Alva's Institute of Engineering and Technology (AIET)
  - Won 3rd Prize in a National-Level Hackathon for developing an ML-based intelligent cooling system.
  - Developed thermal hotspot detection and dynamic cooling control for an intelligent cooling system.
